

Pathways into Care Counts v.3

Date: Oct 5, 2023

Data

This analysis is derived from the Pathways into Care table [[HYPERLINK "https://rcabuse.sharepoint.com/:x:/r/teams/SurvivorAccounts/Dot%20Loves%20Data%20Sample%20Site/Initial%20Pathways%20into%20Care%20data.xlsx?d=wce388b5ac1ce4b7ab68015f83566b24a&csf=1&web=1&e=FTQ3Lo"](https://rcabuse.sharepoint.com/:x:/r/teams/SurvivorAccounts/Dot%20Loves%20Data%20Sample%20Site/Initial%20Pathways%20into%20Care%20data.xlsx?d=wce388b5ac1ce4b7ab68015f83566b24a&csf=1&web=1&e=FTQ3Lo)] (column "category").

The table describes the split of survivor counts by their *first pathway into care* and the type of *any institution* they reported to have spent time in.

Total Counts

These counts are the raw counts of survivors from the table mentioned above. Each person has a single identified pathway into care and is counted once in the Pathway into Care category and once in the top-level Reporting Category (in bold in the table).

Counts by Setting

These are the counts of all survivors by setting type (setting reporting group). For each setting type, all the survivors who reported to have spent time in an institution of this type are split by their identified pathway into care.

Note that each survivor has a single pathway into care, but may attend many institutions. This means that one person can be counted within multiple setting type sections.

Appendix - Data Processing

Pathways into care

Various categories are merged:

- “Unknown - no documents available or not identifiable in the documents” (41 survivors) and “Unknown - did not know or not identifiable in the documents” (31 survivors) into **“Unknown”**
- “Psychiatric” (5) and “Psychiatric - unknown” (27) into **“Psychiatric - Unknown”**
- “Taken away by CYFS” (39) and “State requirement - Unknown” (51) into **“State requirement - Unknown”**

The “Other” category was removed, and the data was cleaned of any invalid records.
